

## Regent Gas annual installation targets for the rollout of smart meters 2023

Utility – Gas or Electric	Reporting Period Start	Reporting Period End	Calculated Planned Annual Target for Second Rollout Year (2023)
Gas	01/01/2023	31/12/2023	240
Electric	01/01/2023	31/12/2023	0 **

\* The target for 2023 aims to be achieved by installing Qualifying Metering Systems, AMR.

\*\*The company has not yet started trading with external customers

From January 2022, under the Smart Metering policy framework, set out in Electricity Supply Standard Licence Condition (SLC) 39A and 44A and Gas Supply SLC 33A and 38A, suppliers must comply with a regulatory framework for the rollout of smart meters as defined by Department for Business, Energy and Industrial Strategy [BEIS] which includes publishing our targets and performance for each rollout year.
